$$x^2 + y \cdot y - g = 0$$
 $x^2 + y \cdot y - g = 0$

Bospoze w $x^2 = p \cdot y \cdot y$.

 $x - \frac{y}{5} = 0$

Roger as we we $y = 5 \times 8$ if yook on ever.

 $x^2 + 5 \times x - g = 0$
 $x^2 + 5 \times x - g = 0$
 $x^2 + 5 \times x - g = 0$
